

Headquarters and Production complex.

Let's start
with THE FUTURE

If centuries-old stories are the strength of our individual companies, today, the interweaving of our stories make us look to the future, *together*.

The Products of Fili d'Oro by Gastaldi are for you a raw material for hospitality care, a finished product easy to source, a new piece of sustainability in your worldwide development.

History

More than a century **history** in the textile production Made in Italy. A dream of a company born from a few home hand looms, in 1893.

Worldwide

We are an Italian company which ships **worldwide**. Each product includes our company history and is designed for the **future**.

Supply chain

From the first hand looms for production aimed to the middle class in the early 1900s, to the creation of a **textile supply chain**.

Today we have luxury and diversified products for Hotellerie, airline, ship and railway companies.

Innovation

The push toward the future: our driving force. We started from an industrial village and reached high levels of global certifications, with investments in photovoltaic panels and water purification systems.

We innovate the entire production and shipping cycle from the inside out: dyeing, weaving, finishing, packaging.

Customer satisfaction

We establish privileged relationships with customers through pre-sales, customization, after-sales, analysis workshop, design study and fast delivery services.

Our customer focus has developed globally and takes into account new **travel** needs and **cultures**.

Design and eco-sustainability

Our designers create exclusive designs following the customer's request ensuring high levels of customization: **Shapes, colors, textures and designer fabrics**.

We optimize the production cycle by researching sustainable solutions and analyzing results. Integrated management of production, logistics and shipping in Europe and worldwide allows us to cut environmental costs.

Logistic and shipping

Our strategic location in the center of Europe enables us to produce and ship quickly, orders and travel **corporate values**.

Lowering difficulties in product sourcing and transportation and environmental costs.

New FACTORY MANUFACTURING TEXTILES AND TABLE LINENS for hotels, restaurants and establishments.

FINANCIAL CRISIS OF THE END OF THE CENTURY

LA BELLE EPOQUE

1900

THE FIRST YEAR OF HOPE

The machineries are brought together in a 1000 m² single shed.

Expansion of tourism: our first trips to Argentina, Uruguay, Brazil.

Years of birth for large Italian companies: Fiat e Olivetti

Olivetti

WORLD WAR I

1920

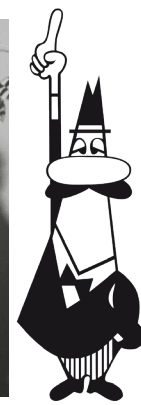

The new weaving area is built, the bleaching and dyeing areas are opened.

"HARD WORK-ING. COMPANY ESTABLISHED"

1929 | THE YEAR OF THE GREAT CRISIS

First symbols of modernity: After the great depression, America changed its tune: the jukebox was born!
An Italian story is born that gives us strength: Bialetti.

1939
1945

The company meanwhile continued to work on its exports, notably pushing for the markets of **Northern Africa** (Egypt).

History continues to weave its thread reaching the

WORLD WAR II

1947

The thread twisting area is created and the name of the company changes into "Industria Tessile Gastaldi & S.p.A."

ECONOMIC MIRACLE

1954
1964

Modern Factory and "Prime textile manufacture".

In the weaving shed are installed the first automatic power looms with associated jacquard equipment's.

1970
1975

A part of the old looms is substituted by new projectile weaving machines with high widths located in sheds under conditions of controlled temperature and humidity.

Some of jigger and rameuse machines are replaced in the bleaching-dyeing section.

1983
1995

In 1990 the first electronic looms with electronic jacquard machines are introduced for realizing all over designs. A design area with CAD is built, in order to realize computer designs.

1998

IN 1998 THE PRESTIGIOUS TRADEMARK FILI D'ORO BY GASTALDI WAS BORN. This line has made the Gastaldi products more and more appreciated throughout the world, as mentioned above "especially for the craftsman touch typical of Made in Italy that is so appreciated and internationally".

FILI D'ORO
by GASTALDI

made in Italy

2002

The introduction of the first electronic air-jet loom modifies the old textile method.

2003

NEW REVOLUTIONARY TEXTILE SYSTEM.
The world's first "Unival" jacquard machine, without being connected with the loom.
NEW JAM DYEING
18.000 M²

GASTALDI LOOKS AT THE FUTURE WITH "AUDACIA ET CONSTANTIA"

Fifth generation of Gastaldi family. A long journey in the world of textiles, which commenced with hand looms and, after a phase of mechanised weaving, finished with the electronic looms of the presents times.

After the initial difficulties, the development of the company was "fast" and "uninterrupted".

We are present on national and international markets with agile and flexible business structure, which focused on punctual delivery and attention to client.

FUTURE GOALS

- Strengthening our position on the market of textile sanitization in Italy and Europe.
- Growing in the foreign markets where our Made in Italy is still valued.

Opera
100% RECYCLED

WE ARE AMONG THE FIRST TEXTILE COMPANY IN ITALY
Ambassadors of quality.
